Jonathan Toughill Hardware/Software Experience & Ratings

Personal Experience Rating System

I will be placing a number on the right of each item listed between 1 and 10
1 being the lowest and 10 being the highest on the knowledge I have on this subject
If a -B is placed next to a listed items rating this means I can blindly walk anyone thru all aspects of the program.
If a specific version is not listed below assume I am speaking of all known versions

Categories

[Operating Systems](#) | [Web Languages & Uses](#) | [Web Servers](#) | [Databases](#) | [Mail Servers](#) | [Firewalls](#)
[Applications/Software & Hardware](#) | [Backup Solutions](#)
[Security Tools](#) | [Hardware](#)

You can click each listing to see a detailed description of my personal experience using the selected application/hardware

Operating Systems

[FreeBSD 4](#)
[SuSe Linux 5](#)
[Redhat 8](#)
[Mandrake 6](#)
[Fedora Core three and four 7](#)
[Sun Solaris 2](#)
[Windows ALL Versions 10 -B](#)
[DOS 10](#)
[Macintosh 9x and lower 8](#)
